

ASA release – Disposal of **ASA** dongles

All ASA users have been successfully transferred from the dongle security *to the Softlock technology*.

The dongle is **no longer required** and has been deactivated.

Please remove the dongle, make it unusable (e.g., break them)
and **dispose of it in an environmentally friendly way**.

If you're unsure, please contact your local authorities.

License change can be done now online via the “Dealer Administration” module in www.myASAinfo.com.

If you have any questions or need further assistance, please contact your local support.
