

ASA-CAPS Information Leak Measures

From the online update around June 11, 2019, the following message is shown at every ASA startup. ASA-CAPS will not start if you do not press the "Accept" button. Thank you for your understanding and kind cooperation.

* The message is displayed when rebooting after online update.

The screenshot shows a dialog box titled "ASA Message". It contains a table with two columns: "No." and "Type". The "No." column has the value "63" and the "Type" column has the value "Info". Below the table is a text area with the following text: "Usage of the ASA-CAPS Parts Information Catalog" and "I understand that I am not allowed to disclose ASA contents (incl. reproduction and reprinting) to third parties without written permission of the copyright holders". At the bottom left of the dialog box is a red "Accept" button, and at the bottom right is a printer icon.

| No. | Type |
|-----|------|
| 63 | Info |

Usage of the ASA-CAPS Parts Information Catalog

I understand that I am not allowed to disclose ASA contents (incl. reproduction and reprinting) to third parties without written permission of the copyright holders
