

ASA-CAPS Ver.2.3 New Functions (Maker Memo)*For Japan

A function of Maker Memo is added in Ver.2.3 as mentioned to Ver.2.2 updates.
The function is no difference with explanation to Ver.2.2 updates.

Please click the Memo icon next to the VIN and Part No. to open the Memo List window.

The screenshot shows the ASA-CAPS interface. At the top, there are two input fields: 'VIN' with the value 'JMFGNP04V9A001715' and 'Part No.' with the value 'MZ312096'. Both fields have a small memo icon (a document with lines) to their right. Red arrows point from these icons to the 'Memo' window below. The 'Memo' window has a title bar 'Memo' and a 'Part No.' field containing '1000C470'. Below this are two tabs: 'Local' and 'MMC'. The 'MMC' tab is selected, and a red arrow points to it. Under the 'MMC' tab, there is a table with the following structure:

Category / Name
Part Information
Details

A red arrow points from the 'Details' row to a blue box on the right.

Text, PDF,
etc.

Please choose the title on "MMC" tab to open the message.
