

ASA-CAPS Ver.2.3 New Functions (Online Updates)*For Japan

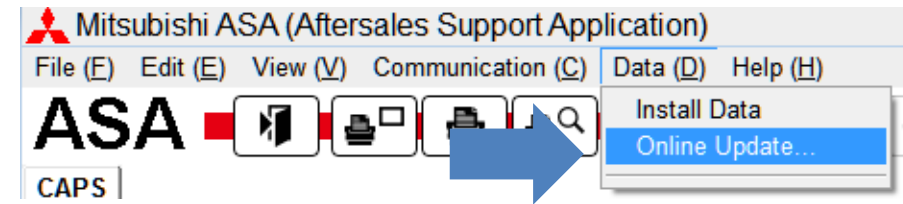

A function of online updates is added to Ver.2.3.
By this function, you do not need to update DVDs basically.

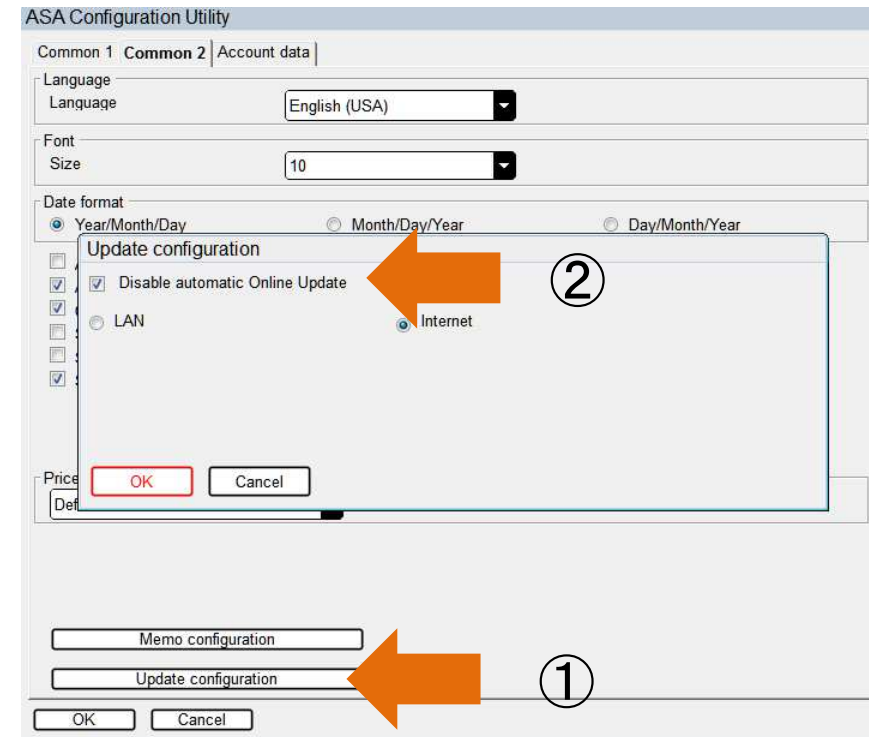

《Main specs of online updates》

- In the default status, the online update is automatically given once a week.
- You can turn off automatic updates and you can perform updates manually.
- The data for the online updates include vehicle information, part information, part illustrations, SPN information and price information.
- Online update requires approximately one to two minutes.*
 - *The period of time depends on the Internet environments or amounts of data.
- During the online updates, you can use ASA-CAPS system as usual.
- For reflecting the results, you must restart ASA-CAPS system after the online updates.
